

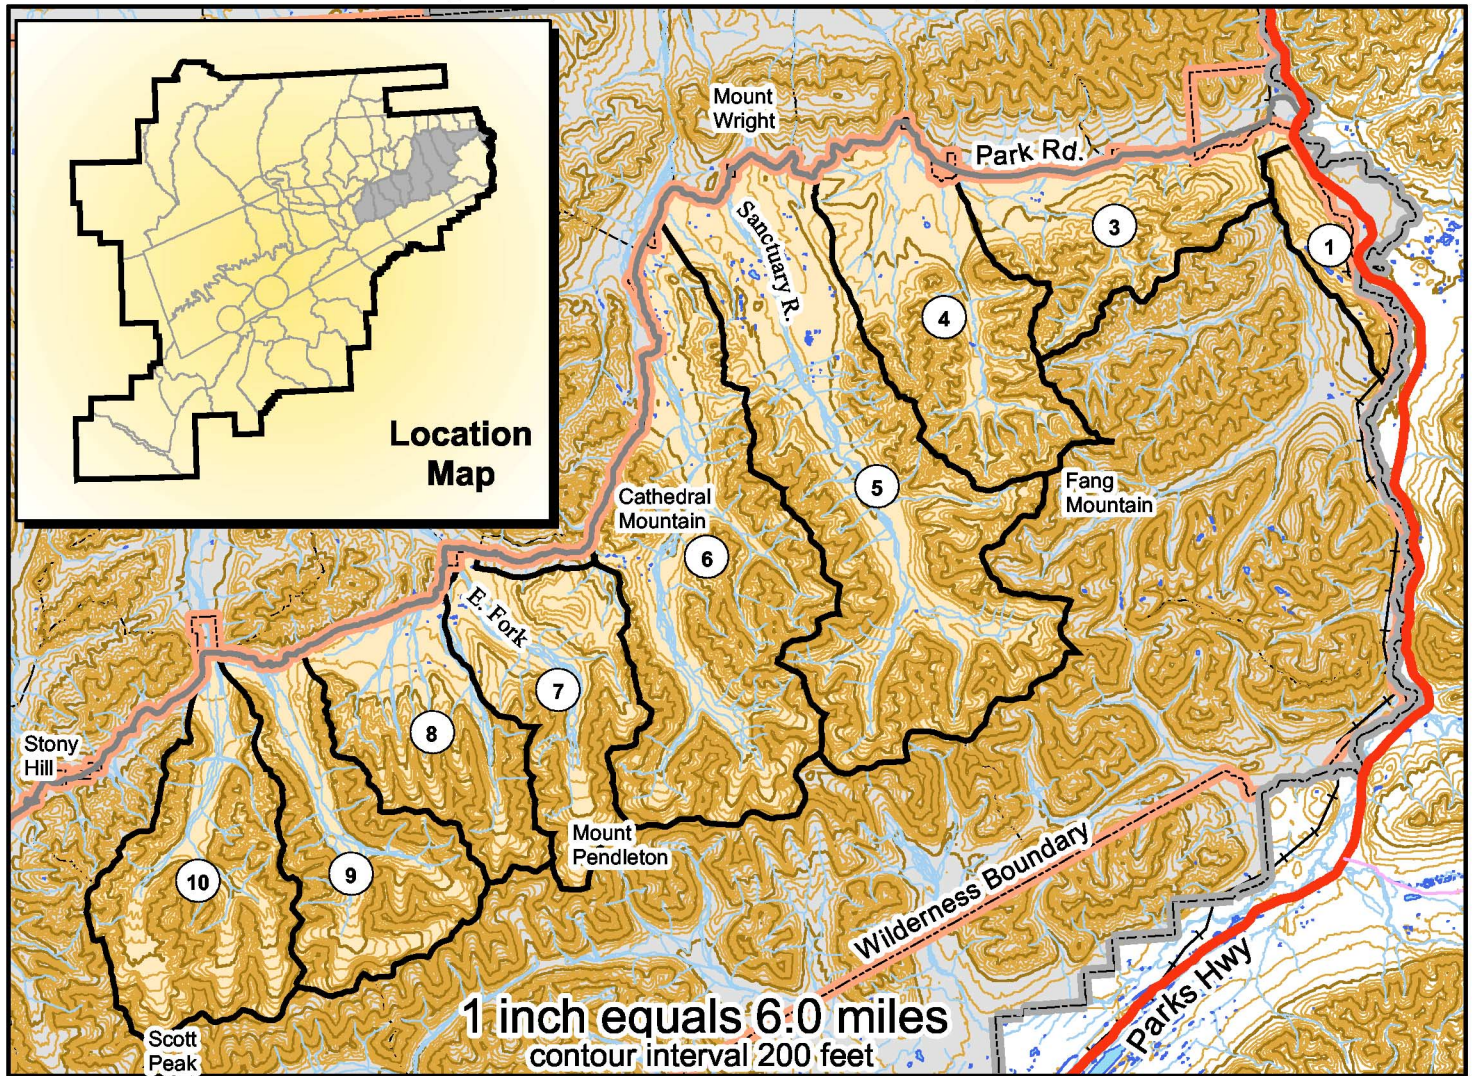

Map 2-20 (Units 1, 3, 4, 5, 6, 7, 8, 9, and 10)

Unit 1,3,4,5,6,7,8,9,10: Triple Lakes, Jenny Creek, Upper Savage, Upper Sanctuary, Upper Teklanika, Upper East Fork, Polychrome Glaciers, East Branch Upper Toklat, West Branch Upper Toklat

Terrain includes dry and wet tundra, taiga spruce forests, tundra bogs, dense stands of birch and willow, rocky outcrops, and steep scree slopes. Between May and September, closures include Sable Pass, east of Teklanika Rest Stop to Double Mountain, a corridor close to the road between Savage and Sanctuary Rivers, and a small area close to the road near Jenny Creek. Wolf dens, bear dens, sheep migration corridor, raptor sites, historic caribou calving area. Scattered archeological sites at Headquarters.

This is a very popular region for backcountry travelers. The wilderness experience is good, but degraded along popular routes and near the road. Encounter rates are moderate and air traffic may be frequent.
